

TRANSCAER[®]

Assisting communities to prepare for and respond to possible hazardous material transportation incidents

Our Sponsors

Our Purpose

Promotes safe transportation and handling of hazardous materials

Educates and assists communities near major transportation routes about hazardous materials

Aids community emergency response planning for hazardous material transportation incidents

Our Scope

A voluntary national outreach effort that focuses on assisting communities prepare for and respond to a possible hazardous material transportation incident.

TRANSCAER® members consist of volunteer representatives from *Chemical Manufacturing, Transportation, Distributor, Emergency Response Industries, and Government.*

Our Organization

National TRANSCAER® TASK Group Provides:

*Strategic Leadership
resources and assistance
to Regional Coordinators
& State Teams*

Regional & State Coordinators:

At the regional and state
level, TRANSCAER®
representatives work to
implement the
TRANSCAER® process

Our Successes

- 1,000s of training events yearly
- 10s of 1,000s trained since 1986
- Developed anhydrous ammonia & chlorine training programs
- Trained over 125K on anhydrous ammonia since 2011
- Chlorine training tour travels to 19 multi-day stops in 2014
- Sponsored by 7 national organizations
- Collaborate with DOT/DOE/EPA/DHS
- Active state coordinators in almost every state
- Actively participate in most state, regional & national hazmat conferences

Our Challenges

- Volunteer organization
- Coordination between agencies
- Communication
- Increased participation at training events
 - Turnover
 - Paid vs. Volunteer
 - Backfill
 - Costs
 - Location
- Acquiring & maintaining qualified trainers & instructors
- Developing the next generation of trainers and responders
- Scheduling & time limitations

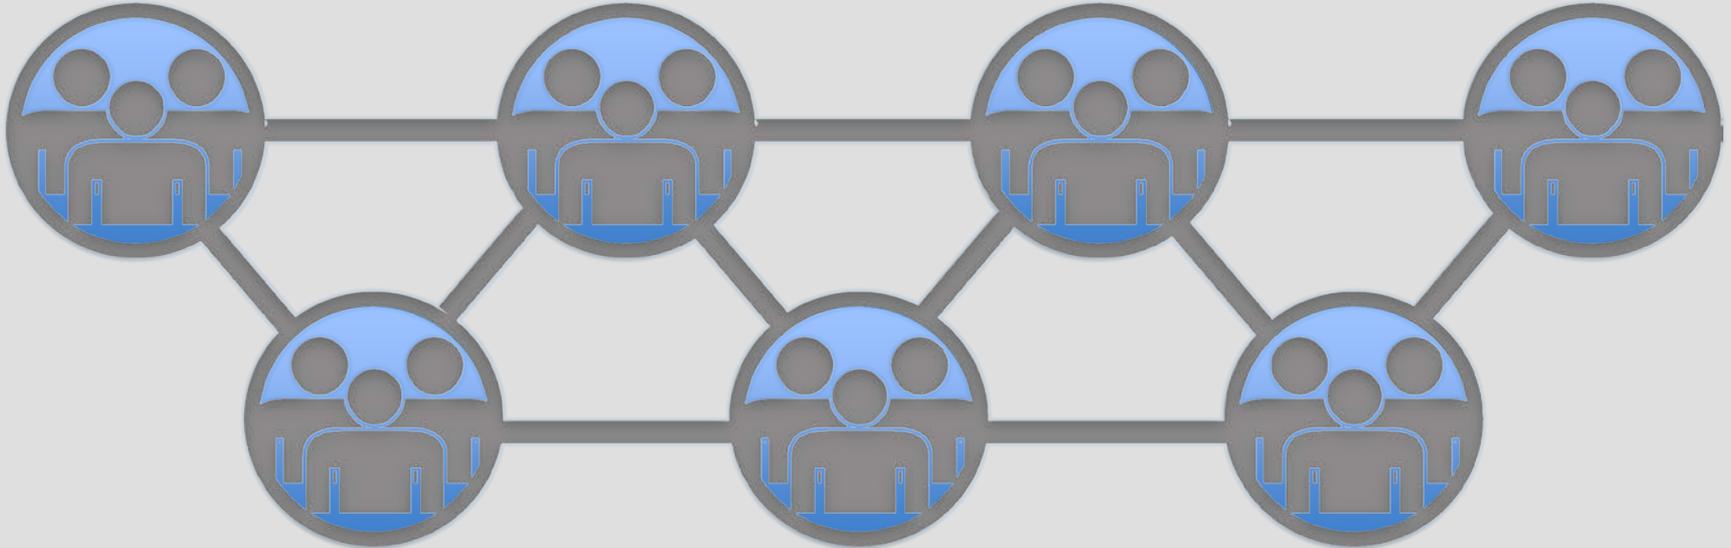

Our Audiences

Hazmat Shippers

Transporters

Regulators

Planners

Effectiveness

- TRANSCAER® equals TRUST with emergency response community
- Recognized multi-industry, long-standing & successful emergency preparedness program
- Collaboration between stakeholders (industry/carriers/government/responders)
- Relationships with federal agencies
- Increased federal grant funding
- Increase in training programs offered
- Diverse product specific training development
- Increased number of dedicated TRANSCAER® team members

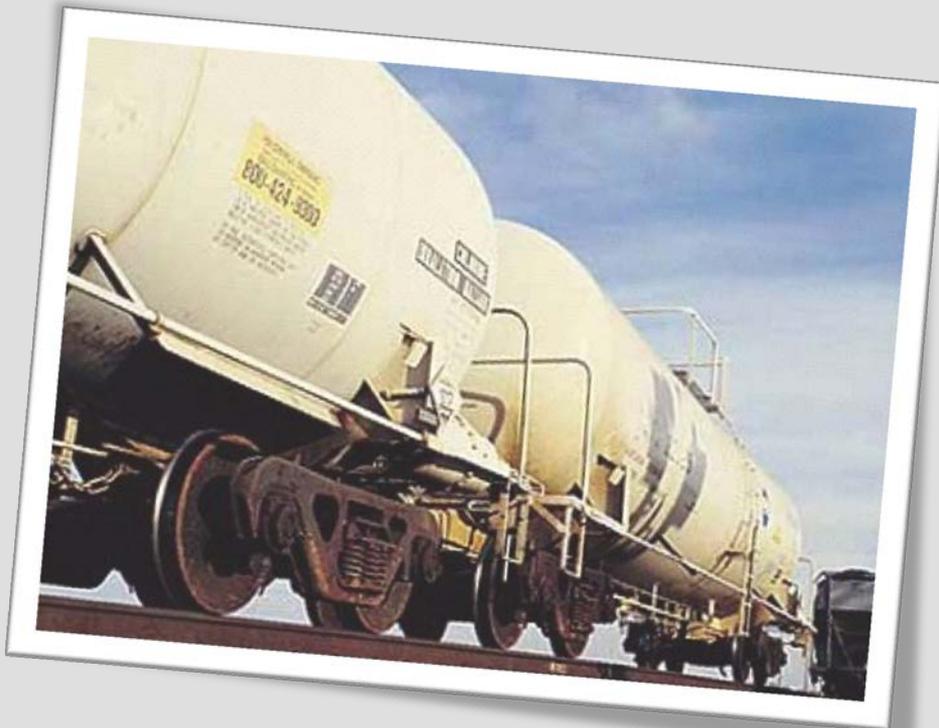

- Neutral ground
- Active in NASTTPO & other state/regional planning organizations
- An effective mechanism to respond to stakeholder questions & concerns
- Enhances communication
- Allows industry to help local responders pre-plan for incidents
- Provides a variety of training to meet the needs of the community it serves
- Training and outreach plays a role in safely and quickly mitigating the incident
- Reduces the risk to the community

LEPCs 9-Step Approach

1	2	3
Establish Contact with Local Emergency Planning Committees	Review Existing Emergency Response Plan	Assist the LEPC to establish a Transportation Advisory Group
4	5	6
Assist the LEPC to implement a Transportation Flow Study	Assist in Revising the Response Plan	Review Emergency Response Resource and Training Needs
7	8	9
Participation in Annual Exercises	Establish an Ongoing Dialogue with Local Officials, Response Agencies and the Public	Assess the Effectiveness of the Overall Program

Our Initiatives

- Continue delivering anhydrous ammonia, chlorine & ethanol training programs
- Develop & deliver crude oil training
- Partner with RFA to develop a new joint ethanol training program
- Develop a SME trainer program
- Leverage existing training programs
- Maintain & increase engagement across diverse industry networks
- Continuing building national sponsors and partnerships
